# Environmental EXCELLENCE AWARD

## Alpine Demolition Services, LLC *Batavia, IL*

### City of Lights Casino Removal

Alpine Demolition Services removed a casino boat in Illinois that was catching river debris and silt. Alpine had the casino boat moved by a truck able tug to a suitable area for interior demolition, removal of all oils, fuel, sewage and Freon. The casino structure was removed to the top of the existing barge. The engines and generators were salvaged for reuse and the majority of the boat's structure was recycled. The previous staging area for the casino will be developed for a park.
