Washington, DC (February 8, 2023) – The National Demolition Association (NDA) will host its Annual Convention & Expo, Demolition Phoenix, February 22 - 25 in Phoenix, Arizona. This year's convention is anticipated to surpass previous attendance records and vendor participation levels.

"NDA is excited to be hosting our Annual Convention & Expo in Phoenix in what promises to be another big year for the event," said NDA Executive Director Jeff Lambert. "We're seeing growth in all areas of the event, from attendees to exhibitors and more. It's great to be connecting the industry together."

Demolition Phoenix will host nearly 1,000 attendees ranging from business owners and contactors, to superintendents and suppliers. The Expo has 86 confirmed exhibitors in 2023 (growing from 66 exhibitors in 2022). The Live DEMOLition Event™, a one-of-a-kind hands-on experience testing the latest demolition innovations, will feature more than 20 participants. Hands-on demonstrations include:

- Excavators
- Shears
- Concrete breakers
- Material handlers
- Hand tools
- Concrete saws
- Cutting tools
- Robotics

Education will also take stage at Demolition Phoenix, with a unique keynote speaker. Mark Schulman, the drummer for P!NK, will share insights increase individual and team performance. Other education highlights include the Demolition Superintendent Bootcamp Course, Hands-on Equipment Maintenance Course, and much more.

[Visit the NDA website](#) for more details, including schedule and information about the event's education.

### About the National Demolition Association

The National Demolition Association (NDA) is a non-profit trade organization representing approximately 500 U.S. and Canadian companies and many international firms that are involved in the demolition process. Membership includes demolition contractors, general contractors, civil engineering abreast of environmental, regulatory and safety matters, keep regulators informed about issues facing the industry, increase public and industry awareness, and provide members with networking opportunities and information on the latest technical advances in equipment and services.
